

Workshop on Early Aspects at AOSD 2010

FULL PAPERS

- 1 *On the Role of Features and Goals Models in the Aspect-Oriented Development of Software Product Line***
Lyrene Silva, Federal University of Rio Grande do Norte, Brazil
Thais Batista, Federal University of Rio Grande do Norte, Brazil
Sergio Soares, Federal University of Pernambuco, Brazil
Lidiane Santos, State University of Rio Grande do Norte, Brazil
- 2 *Are Themes and Use Cases the Same?***
Valentino Vranic, Slovak University of Technology, Slovak Republic
Pavol Michalco, Slovak University of Technology, Slovak Republic
- 3 *Conflict Management in Aspect-Oriented Requirements Engineering***
Alberto Sardinha, Lancaster University, UK
João Araújo, Universidade Nova de Lisboa, Portugal
Ana Moreira, Universidade Nova de Lisboa, Portugal
Awais Rashid, Lancaster University, UK
- 4 *Towards a Domain-Oriented Approach for Identifying Aspects in Software Requirements***
Ehab Abdel Nasser, Arab Academy of Science & Technology, Egypt
Haitham S. Hamza, Cairo University, Egypt
- 5 *A Method Based on Petri Nets for Identification of Aspects***
Vahdat Abdelzad, Islamic Azad University, Iran
Fereidoon Shams Aliee, Shahid Beheshti University, Iran

POSTER PAPERS

- 6 *Towards an Extension of the Theme/Doc Approach to Specify Variability in SPL Development***
Inês Simão, Universidade Nova de Lisboa, Portugal
João Araújo, Universidade Nova de Lisboa, Portugal
- 7 *Ontology to Multi-Dimensional Separation of Concerns in Requirement Engineering***
Miguel Bento Alves, Instituto Politécnico de Viana do Castelo, Portugal
